OFFICE OF THE CONTROLLER OF EXAMINATIONS (COE)

Document ID: COE-REG-2026-V10

Subject: Statutory Attendance Requirements, Predictive Calculus, and Condonation Policy

1.0 THE PREDICTIVE CALCULUS RULE (AI ENGINEER DIRECTIVE)

The AI Orchestrator must evaluate the multi-sheet departmental Excel registers dynamically.

- **Current Percentage:** Calculate attendance up to the current date. The AI MUST strictly ignore empty cells or future dates; they do not count against the student's total working days.
- **Projected Semester Percentage:** Extrapolate the student's current attendance pattern across the remaining un-filled months of the semester. Write these values to the Semester_Summary sheet.

2.0 STATUTORY THRESHOLDS & ANTI-SPAM LOGIC (AI AUDITOR DIRECTIVE)

The AI must audit the Semester_Summary sheet after calculations are saved.

- **THE FIRST-MONTH GRACE PERIOD RULE:**

If the Total_Working_Days for the semester is less than 20, the AI MUST NOT trigger Category II or Category III alerts, as the mathematical sample size is too small.

Set the Academic Standing to "Grace Period Active".

- **Category I (Safe):** Projected Percentage $\geq 75.0\%$. Action: Set Academic Standing to "Eligible".
- **Category II (At-Risk):** Projected Percentage between 65.0% and 74.9%. Action: Set

--- PAGE 2 ---

Academic Standing to "Condonation Warning" and trigger the Early Warning alert.

o Anti-Spam Rule: Include "notification_category":

"attendance_warning" and "cooldown_days": 30 in the JSON payload.

- Category III (Detained): If all monthly sheets are filled AND final calculated percentage is < 65.0%. Action: Set standing to "Detained" and trigger the Professionalism Alert.

o Anti-Spam Rule: Set "notification_category": "detained_alert" and "cooldown_days": 30.

3.0 END-OF-SEMESTER DETENTION PROTOCOL (TIER 3)

When a student falls into Category III at the end of the semester, the automated workflow for medical condonation is officially suspended. The AI MUST NOT ask for a medical certificate. It must send a grave, highly professional alert advising the student to schedule an immediate in-person meeting.

4.0 OFFICIAL NOTIFICATION TEMPLATES (TELEGRAM HTML)

When generating the "notify" action, use these exact formats. Do not alter the HTML tags.

[TEMPLATE 1: EARLY WARNING]

ATTENDANCE SHORTAGE WARNING

Student: {Student_Name}

ID: {Student_ID} |

Dept: {Department}

Reason for Alert: Projected Attendance has dropped to

{Projected_Semester_Percentage}%

Action Required: Please ensure you maintain regular attendance to avoid statutory condonation penalties. If you are facing legitimate

difficulties, reply directly to this chat to speak with the AI Concierge.

--- **PAGE 3** ---

[TEMPLATE 2: DETAINED - PROFESSIONALISM ALERT]

CRITICAL ACADEMIC STANDING - DETAINED

Student: {Student_Name}

ID: {Student_ID} |

Dept: {Department}

Reason for Alert: Final Calculated Attendance is

{Calculated_Percentage}% (Category III).

Action Required: Automated condonation is no longer mathematically

possible. Please maintain academic professionalism and schedule an in

person meeting with your Head of Department immediately.
